NIHOMA®

Product Name	CORE TOP (Hot & Cold Water Dispenser)	Brand Name	NIHOMA®
Model No.	N0120-CH	Weight	20 kg
Size (W x D x H)	300mm (W) x 360mm (D) x 520mm (H)	Rated Power	(220-240) V~, 50Hz
Water Tank Material	Stainless Steel	Power Consumption	HOT/485W, COLD/120W(0.75A)
Filter System	Ultra Filtration (UF)	Tank Capacity	Cold 3.8L Hot 1.5L
		Climate Class	T
Compressor Maker	Samsung Electronics Co. Ltd.	Heating Type	Band Heater
Country of Manufacture	Republic Of South Korea	Cooling Capacity	1.3L/Hour
		Refrigerant	R-134a(30g)

NIHOMA®

"Improving Your Quality Of Life"

CUSTOMER CARELINE : 1300 - 88 - 3939

Wisma NIHOMA, No. 46, 1st Floor, Lorong Kelasah 3, Taman Kelasah, 13700 Seberang Jaya, Perai, Prai, Pulau Pinang, Malaysia.

WE ACCEPT

CORE - TOP

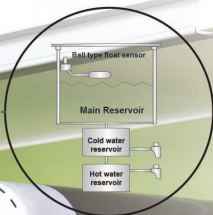

Hot & Cold Water Dispenser
(N0120-CH)

- Hot and cold function
- Save time and space
- Reduce plastic pollution
- Minimalist design
- Clean filtered water
- Child safety lock system
- Flexible payment plans

DESIGNED IN UK

MADE IN KOREA

• **Smart water level controller technology**
Maintain water levels automatically to avoid overflow.

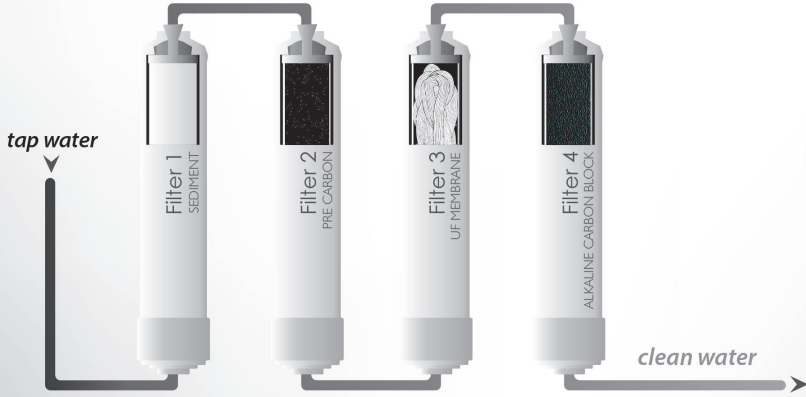

• **External heating system**
Outside-in heating element helps to maintain and prevent secondary pollution.

• **Clear LED indicator**
Built-in LED indicator shows the mode (hot / cold) at a glance.

• **Child safety lock system**
Additional features to protect your children.

• **Intelligent temperature control system**
Ideal for cooking and the preparation of hot beverages such as coffee and tea.

4 - stage water filtration

Filter - 1
SEDIMENT

Sediment Filter is a pre-treatment filter of water purification system remove bigger than 5µm contaminants as dirt, sand and oxide pollutants from the tap water and protects membrane and pre carbon filter from being clogged.

Filter - 2
PRE CARBON

Pre Carbon Filter prevents hydrolysis of membrane and enhances the life of membrane, it also absorbs residual chlorine and organic chemicals from tap water. The efficient removal of chlorine from water, thus providing a source of water which tastes good and is more likely to be consumed.

Filter - 3
UF MEMBRANE

UF Membrane Filter which has as small as 0.001~0.1µm pore size is well suited to remove bacteria, clay, particle, suspended metal hydroxide and other suspended materials, however the containing minerals in water pass through UF Membrane filter having a superior water purification capability.

Filter - 4
ALKALINE CARBON BLOCK

Alkaline Carbon Block Filter utilizes a specially blended media with magnesium chip filtration technology. It creates water that has increased amounts of negative ions, magnesium (Mg), as well as hydrogen (H). The PH levels of the water are increased to levels between 8.5 and 9.5, which has numerous health benefits.
